

INNOVATIVE TECHNOLOGY

CULTURAL DIVERSITY

FUTURE SKILLS

What does **the Future** look like?

What will the world be like in 2030? Reports pointed out that 85 million jobs worldwide will be replaced by artificial intelligence, but at the same time, 97 million new jobs will be created.

The world is undergoing unprecedented change, and we will set out for the future together with you. Developing innovative technology, embracing cultural diversity and nurturing future skills are our three major visions.

“The best way to predict the future is to create it”

- Abraham Lincoln

2030年的世界是怎樣？報告指出，全球將有8500萬個職位被人工智能取代，但與此同時創造出9700萬個新職位。

世界正面對前所未有的改變，我們將與你一起，為未來啟程。「發展創新科技」、「擁抱多元文化」及「培育未來技能」是我們的三大願景。

Welcome.

When Secondary 1 students graduate from secondary school and university 10 years later, what jobs will they take? A doctor? Lawyer? Engineer?

No matter what job it is, we believe that every student has their strengths and shining points, and you can definitely shine. Even though students may face different challenges in the future, as long as you have goals and are willing to persevere, with a grateful heart, you will be able to solve the problems easily and achieve an extraordinary life.

十年後，中一同學中學及大學畢業後，會做什麼工作呢？醫生？律師？工程師？

無論是什麼工作，校長和老師相信的是每個同學都有你們的長處和閃亮點，你們一定可以發光發熱。縱使同學未來面對不同的挑戰，只要有目標，願意堅持，憑著感恩的心一定能將問題迎刃而解，成就不平凡的人生。

Principal Mr. Kim Au

I THINK.
I QUESTION.
I DESIGN.
I CREATE.
I STRUGGLE.

I COLLABORATE.
I TRY.
I SOLVE.
I INVENT.
I REFLECT.

I LEARN.

Developing Innovative Technology

What is the Future of Technology?

Coding, as the language of the future, should be a regular part of the curriculum, just like you will not treat English as an extra-curricular activity or interest class. The weekly STEAM classes allow students to learn important future knowledge and skills, such as science, technology, AI, Coding, and Deep Learning.

In 2021, we have become a Microsoft Showcase School (incubator) and a Founding School of Apple Swift Coding Club. Cooperating with the IT giants can enable students to broaden their horizons and enrich their imaginations about the future.

“Coding is the language of the future”

- Mr. Ranamagar
(Consul General of Nepal, CWCC parent)

Coding 作為未來語言，應是一個持之以恆的課程。正如英語，你也不會視作為課外活動或興趣班。每星期的STEAM課堂，讓學生學習科學、科技、AI、Coding、Deep Learning等未來重要的知識和技能。

2021年，我們成為Microsoft Showcase School (incubator) 和Apple Swift coding Club 的創始學校。透過與科技界的領導機構合作，讓學生擴闊眼界，豐富對未來的想像。

Embracing Cultural Diversity

What is the Future of Globalization?

In the era of globalization, work in the future will be cross-regional and cross-cultural collaboration. It is essential to cultivate students' cross-cultural sense and international vision. Our students come from 12 different countries, providing a soil for diverse cultures to thrive.

Over the years, we have assisted students from different countries to integrate into Hong Kong's life and culture through multiple activities. Yet, we pay even more attention to the mutual appreciation of each other's culture among students, and promote cultural confidence.

"The future of work will be Cross-Regional and Cross-Cultural Collaboration."

***- Mr. Jimmy Bajjinder
(Founder of Racial Integration Education and Welfare Association, CWCC parent)***

在全球化的年代，未來的工作將會是跨地域和跨文化的協作，培育學生國際視野和跨文化的觸覺是十分重要。我們的學生來自12個不同國家，孕育出多元文化的土壤。

多年來我們以多元活動協助來自不同國家的同學融入本港的生活，我們亦十分重視同學之間互相欣賞的文化，建立文化自信。

Nurturing Future Skills

What are the **Future Skills** we have to learn today?

In recent years, when hiring new recruits, many major corporations have paid more and more attention to the generic skills of candidates in addition to academic qualifications. **Digital skills, problem solving, communication, collaboration and entrepreneurial spirit are all extremely important qualities in the world today and in the future.**

Apart from daily classroom learning, we use the school-based curriculum “iFuture” to cultivate students’ generic skills and connect with the future world. iFuture emphasizes students’ experiential learning and empowers them to become leaders in the future.

“The future belongs to those who learn more skills and combine them with Artificial Intelligence.”

***- Dr Mirhosseini, Seyyed-Abdolhamid
(HKU Associate Professor, CWCC parent)***

近年不少大機構在聘請新人時，除了學歷外，也愈來愈重視應徵者的共通能力。**數碼技能、解難、溝通、協作及創業家精神等都是當今及未來世界極其重要的技能。**

除了日常課堂學習，我們透過校本課程 iFuture，培育學生共通技能，與未來世界接軌。iFuture 重視同學從體驗中學習，並讓他們成為未來的領袖。

What is the Future of Sports?

The future sports world will undergo earth-shaking changes. With advances in technology, restructuring in population and changes in people's living habits, we cannot ignore the new trends in the future sports world.

We have established the first school base for newly emerged sports, set up coach training courses, subsidized students to participate in overseas competitions, and cultivated talents in the future sports world.

NEWLY-EMERGED
SPORTS CENTRE

KABADDI
TRAINING CENTRE

"The fact that Break Dancing and Skateboarding have become Olympic events heralds the diversification of the future sports world."

***- Mr. Kennedy Lai
(Founder of Hong Kong Newly-Emerged Sports Association)***

未來的運動世界將會有翻天覆地的轉變。科技的進步、人口結構的變化以及人們生活習慣的改變，我們不能忽視未來體育世界的新趨勢。

我們成立全港首個新興運動學校基地，開辦教練培訓課程，資助學生參加海外比賽，培育未來體育世界的人才。

iFuture

School-Based Curriculum

Our school-based curriculum “iFuture” is committed to developing students’ future professional and generic skills.

In the iFuture classes chosen by students themselves, they learn professional knowledge and develop generic skills according to their interests and talents. Our courses provide students with opportunities for internship, gaining experience and attaining professional qualifications and help students explore and be prepared for the future world.

“It’s cool to learn at CWCC.”

- Leung Kylie Camille
(Chairperson of Student Union 2021, S.5 student)

iFuture 校本課程致力發展同學的未來專業及共通技能。

每星期兩節的iFuture 課堂，同學按興趣及專長揀選課程，學習相關範疇的專業知識，培養共通技能。課程為學生提供實習、體驗及考取專業資格的機會，探索及準備迎接未來世界。

**Our Students,
Next Generation Leaders**

Founded in 1967. Ready for 2030.

香港中文大學 CUHK -
工商管理學士綜合課程 IBBA

Caritas really has a whole-person development scheme. They don't just want you to focus on academics, but also extracurricular activities. That's why I really love being here.

I think CWCC is one of the most diverse schools in Hong Kong. It gives me (exposure to) people with different nationalities and backgrounds. With that, you can meet a lot of interesting people and be friends with them. I enjoy school activities at CWCC. The school has provided us with a lot of activities, even off campus, such as sports competitions and music festivals.
